The first part of the paper discusses the importance of understanding the cultural context of the research. It highlights the need for researchers to be sensitive to the values and beliefs of the communities they are studying. This is particularly important in the field of education, where cultural differences can significantly impact learning outcomes.

The second part of the paper focuses on the methodology used in the study. It describes the process of selecting participants, collecting data, and analyzing the results. The authors emphasize the importance of using a mixed-methods approach to gain a comprehensive understanding of the research topic.

The third part of the paper presents the findings of the study. It discusses the results of the quantitative data analysis and the insights gained from the qualitative interviews. The authors conclude that there are significant differences in learning outcomes between the two groups, and these differences can be attributed to cultural factors.

The final part of the paper discusses the implications of the findings for future research and practice. It suggests that educators should be aware of the cultural context of their students and tailor their teaching methods accordingly. The authors also recommend further research to explore the underlying reasons for the observed differences.

Crystal,

I can't believe that my crazy big sis is going to graduate and have to become civilized. Just remember that life is what you make it and Papaw is probably looking down and is very proud of his 1st graduating grandchild. Also remember to never change for anyone, but yourself!

Sisters for life - Love, Janie

Julie R.,

We've gotten very close this year and I wish you weren't leaving. Stay in touch.

I love you like a sis! Amber

The Jr Band Members

Brooke,

Not everyone can say they've known their best friend their entire life - I can. We've gone from being pulled in a wagon by the lawnmower to bike rides, and now to graduation. Before we know it, it will be wedding bells and baby showers. I couldn't have made it without you. Don't ever lose touch.

FACULTY & STUDENTS

Faculty, Staff, and Administration

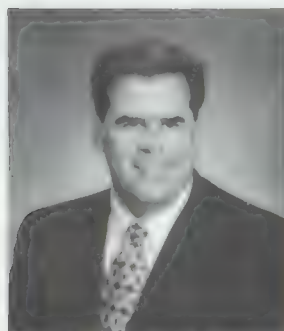

Sanger High School

From the
Superintendent
Mike Rosenberg

Sanger ISD is proud to recognize the students, faculty, staff, & administration of Sanger High School. While we honor the individuality of each student, we also confirm that as a group you have done an outstanding job this school year. Your commitment to principles that lead to success are representative of what is best about our nation.

To each graduate in the class of 1999 I offer this recommendation; never fail to recognize & respect the world in which you live. Reach out to those less fortunate & do not judge people. Work each day to make a difference. Most importantly, listen to the views of others & then do what is right. Success will come to you even though sometime life can be a struggle. Dedicate yourself to the proposition that there are not limits if you are willing to work ahead to reach your goals. Finally, always be aware that you have friends & family that love you. Always be aware that we are proud of you & rest assured that we shall remember each of you.

Great things are happening at Sanger High School. In the curricular and extra-curricular areas, students at SHS have proven they are among the best in the state, & it is my honor to work with everyone of this fine high school. As of December 1, we have a total of 583 students enrolled in SHS. Our TAAS scores are always increasing; we have more students taking the college entrance exams than ever before, & our UIL Academic Team is already preparing for the district competition. We have done extremely well in our fall extra-curricular activities - winning district in football & returning to the playoffs for the 4th straight year, placing 3rd in volleyball & reaching the playoffs for the 1st time in 8 years, winning district in boys cross-country, receiving a 1 in Regional band competition for the 2nd year in a row, FFA Leadership teams winning Sweepstakes at the District 5 Contests, FHA/HERO with the largest student involvement of any group on campus, and our outstanding cheerleading program qualifying for the National Cheerleading competitions, for the 2nd year in a row. So, as you can see, we are truly having a great year at Sanger High School.

Head Volleyball Coach

"1998 marked the emergence of a successful Lady Indian volleyball program with several "firsts" being achieved which helped to prove that the success of this young program is bonafide & only the beginning of a new winning tradition. Among the seasonal highlights were beginning the season with 4 straight wins; winning the first tournament championship at Community with Vicky Kamp being named Tournament M.V.P. while Jackie Cannon & Brooke Felts were chosen for the All-Tournament Team; beating Gainesville for the first time in countless years how sweet it was!!) &, qualifying fo the Bi-District play-offs. By all accounts, it was a good year with lots of great memories & experiences. I am very proud of all that we accomplished & the efforts of every player. Each year has been a major step forward in the quest to win a District Championship, & this year put us so much closer to that goal. The future holds such bright possibilities for us because of the examples & precendents set by this team through its accomplishments.--I'd just like to say "Thanks" to everyone on the team and "I'll miss you" to my seniors."

1998 SANGER INDIANS

PURPLE PRIDE!

“

The 1998 football season started out with a lot of question marks because of the loss of 16 seniors from last season and 2 not so spectacular scrimmages to open the year. The 1998 team pulled it together and recorded only the second undefeated regular season record in school history. This was the third District 9-3A Championship out of the last four years and the first time in school history to go to the playoffs four years in a row. I will always be extremely proud of what these young men accomplished and feel they deserve a place as one of the best teams in Sanger High School history.

Little Elm 60-0

"It was a good win for us. The win sent a message to the other teams in the district."

Coach Mark Simpson

Decatur 25-0

"The kids played really tough defensively, giving up little more than 100 yards. A good effort in Decatur set the tone for the tougher games in the district."

Coach Toby Perkins

Gainesville 14-6

"We knew that Gainesville was going to be our biggest challenge of the year defensively. Our defense stepped up to the challenge & shut down Gainesville's explosive running backs. We were extremely proud of our team holding them to just six points."

Coach Dana Bloedel

"Don't be a hold out! Go all out!!!"

Bridgeport 26-14

"The Bridgeport game was for the District 9-3A Championship & the Indians had to play one of their best games. They met the challenge & defeated the Bulls in an exciting game that made them Champions again."

Coach James Ivy

Lake Dallas 28-14

"By beating a much-improved Lake Dallas team, in week 10, we wrapped up a perfect 9-0 regular season. It would have been easy to fold against them, considering the fact we clinched the 9-3A Dist. Championship a week prior. However our kids put their pride on the line showing their true character & would not allow the upset. These guys are winners & will always be winners!"

This was an exciting year. We were very proud of these young men and the effort they gave to get this program headed in the right direction. A high point during non-district was the home opener for the new gym. They played a great game defeating a state bound Ponder team 78-66.

The highlight of district play came on January 29th with an exciting home victory over rival Decatur.

Success can be measured by the obstacles a team overcomes. The 998-99 Lady Indians conquered many obstacles that would have caused an average team to quit. The Bi-District champions of Sanger High School showed the desired, determination and dedication it takes to be a champion on the court and in life.

The Toxic Avengers were a team of talented creative Sanger students. The team was formed to compete in the D.C. BEST contest. The contest endeavors to inspire students in the physical sciences. Each year companies sponsor a 6-week national contest for students to work with professionals from industry. The teams are given the objective & scenario at the kick-off meeting, but it always involves designing & building a robot with only the supplies they provide. It takes a lot of creative thinking & the ingenuity to build a robot with limited equipment & time. We had lots of fun & the kids were great. Since this was our first year, & we didn't know what to expect, it was a learning experience. But next year- Watch out D.C. Best! Sanger's revved up to win.

This year S.A.D.D. changed its name to Students Against Destructive Decisions, in order to broaden the range of issues we strive to raise awareness about. We advocate a "no use" policy for alcohol and other drugs, as well as educating the students and community about the dangers of drinking and driving as well as other dangerous decisions. S.A.D.D. sponsors several activities throughout the school year to raise awareness such as Red Ribbon Week and the annual S.A.D.D. prom party.
